PREMIER ANALYTICAL SCIENCES

REPORT NO.

PAS-2026-5394
ISSUED 2026-10-01
PAGE 1 OF 1
REVISION 0 — CURRENT

CLIENT

Zoedana Labs

CHAIN

RECEIVED 2026-09-26
CONDITION — INTACT, SEALED
ANALYZED 2026-10-01
RELEASED 2026-10-01 · 8:02 PM PDT
BASIS — PER VIAL

METHODS & LIMITS

a · HPLC-UV / ESI-QTOF-MS — USP/NF 621 Chromatography (SOP-13); LOQ 1 µg/mL
Chromatograms & spectra appended per laboratory number

Results relate only to the specific samples tested. Reproduce only in full. This certificate reports only the analyses listed, and its results are intended for research use only — the material tested is not approved for human or veterinary use, or for therapeutic, diagnostic, or clinical applications. Results should be interpreted by qualified professionals within the scope of the intended research. Accuracy and reliability of results may be influenced by sample integrity, handling, and other experimental variables. An endotoxin screen is not a sterility claim. Premier Analytical Sciences does not endorse any company or product listed in this register. A record here states what was measured, nothing more. Premier Analytical Sciences conducts its testing in accordance with ISO/IEC 17025 requirements; it is not an ISO/IEC 17025 accredited laboratory.
